

TRIAL OF CLAUDE BEGINS MONDAY

Panel of 100 Men Being Summoned From Washington to Go to Wytheville.

Bristol, Va., June 26.—A panel of 100 men is being summoned from Washington, the county in which Bristol is situated, to be present at Wytheville on Monday morning for the resumption of the trials of the men of the Allen gang. It developed to-day that the Commonwealth has changed its plan and instead of next trying Claude Swanson Allen for the murder of Sheriff Lew Webb in the recent Hillsville shooting, he will be placed on trial Monday for the murder of Commonwealth's Attorney W. M. Foster. It also developed that his defense will be that he has already been in jeopardy for the crime, having been convicted of the murder of Judge Thornton L. Massie, and his punishment fixed at fifteen years in the State Penitentiary. There are three to be tried yet, Fred and Victor Allen and Sidna Edwards, in addition to the outlaws yet at large.

Judge Staples will try them separately, beginning Monday, until the cases of all those in custody have been disposed of. Claude Allen's father, Floyd Allen, now under conviction of murder in the first degree, will be a witness in all of the trials.

WOMAN HORSEWHIPS MAN.

Camden Widow Says It Is Worth \$10 Fine, Which She Pays.

New York, June 26.—Mrs. Sophie Tucker, aged thirty-five years, a widow, of Camden, N. Y., was arrested to-day charged with horsewhipping Henry Armstrong, a Camden neighbor, in front of the Liberty Street ferry house. She was fined \$10, which she paid from a huge roll of bills, and walked out of the courtroom saying she was satisfied.

Mrs. Tucker told the magistrate that about a month ago she and Armstrong got into an argument about a walk. Later, she said, Armstrong called her vile names.

"I gave him three days to retract," Mrs. Tucker said. "He didn't, so I followed him from Camden over to New York and gave him a horsewhipping."

Mrs. Tucker said she felt sure she could get justice in the New York courts, but wasn't sure about it in the New Jersey courts.

A crowd witnessed the horsewhipping, which continued until the arrival of a policeman. The ladies struck Armstrong around the neck and shoulders.

OXFORD DEFEATS HENDERSON, WINNING OUT IN THE NINTH

[Special to The Times-Dispatch.]

Oxford, N. C., June 26.—Oxford defeated Henderson on the latter's grounds by the score of 3 to 2.

Until the eighth inning White held the Oxford team safe, with only one hit, but in this frame White weakened, and Oxford scored two runs, and the game was in the hands of the Oxford reliever, pitching in fine style the remainder of the game.

Batteries: Oxford, Perkins, Meadows and Winston; Henderson, White and Turner.

INVESTS \$725 IN BEER

New Jersey Man's Bill Covers Period of 227 Days.

Morrisstown, N. J., June 26.—The testimony of Adolph Hagan, in the suit for alimony brought by his wife, that he had spent \$725 on beer in a period of 227 days, furnished material for some energetic figuring on the part of those who were present in the courtroom.

At 5 cents a glass Hagan's beer investments stand for a total of 14,500 glasses, or sixty-three glasses a day. The total for the 227 days is 14,500 glasses, or sixty-three glasses a day. The total for the 227 days is 14,500 glasses, or sixty-three glasses a day.

ITALIAN SCULPTOR DEAD.

John Grignola Succumbs to Appendicitis in New York Hospital.

New York, June 26.—John Grignola, sculptor, is dead at the New York Hospital here, following an operation for appendicitis. He was born in Italy nearly one year ago, and came to this country in 1882.

Mr. Grignola was president of the Mount Atry Granite Cutting Company of North Carolina. He had designed many panels and statues for public and private buildings and was known also as a master workman in the execution of the carving and statues from designs by other sculptors and architects. His latest work was on the Paul Jones monument in Washington.

S.S.S. REMOVES BLOOD HUMORS

Every pore and gland of the skin is employed in the necessary work of preserving its smooth, even texture, softening and cleaning it, and regulating the temperature of our bodies. This is done by an evaporation through each tiny outlet, which goes on continually day and night. When the blood becomes infected with humors and acids a certain percentage of these impurities also pass off with the natural evaporation, and their sour, fiery nature irritates and inflames the skin, and dries up its natural oils, causing pimples, boils, pustules or some itching rash, or hard, scaly skin affection. S.S.S. cures skin troubles of every kind by neutralizing the acids and removing the humors from the blood. S.S.S. cools the acid-heated circulation, builds it up to its normal strength and thickness, multiplies its nutritious, red corpuscles, and enriches it in every way. Then the skin, instead of being irritated and diseased by the exuding acid matter, is nourished, soothed and softened by this cooling, healthy stream of blood. S.S.S., the greatest of blood purifiers, expels all foreign matter and surely cures Eczema, Acne, Tetter, Salt Rheum and all other diseases and affections of the skin. It removes pimples, blackheads, and other unsightly blemishes from the skin and assists in restoring a good complexion. Book on Skin Diseases and any medical advice desired free to all who write.

CLASSIC REGATTA AT POUGHKEEPSIE

Crews Representing Six Universities Will Be in Races on Saturday.

Poughkeepsie, N. Y., June 26.—A memorable contest in American rowing annals is promised in the intercollegiate regatta to be held on the Hudson river, opposite this city, June 28, when eight-oared crews representing six colleges—Cornell, Columbia, Pennsylvania, Syracuse, Wisconsin and Leland Stanford University—will measure boat lengths with one another in the annual four-mile race for the varsity challenge cup, now held by Cornell.

Preceding the big varsity race there will be the usual two-mile race between four-oared crews representing all but Stanford and Wisconsin, and the two-mile freshmen eight-oared race, in which all but Stanford will be represented.

The prediction as to the memorable quality of the regatta is based on the observation of the veteran coaches in charge of the young crews, and others who have followed rowing for twenty years or more.

"Never have I seen six crews so good as the six university eights assembled here," said Charles E. Courtney, the coach of Cornell University. "The contest between Cornell and Columbia last year was truly a wonderful race. But I believe that all of this year's crews will be more closely bunched at the finish than they were in 1911. In my opinion, there will not be an inch of the four-mile varsity race that will not be worth seeing."

For this great regatta, 120 college rowing men have trained. They are divided into the fifteen crews representing the colleges named. To see these men in the pink of physical fitness, after months of training, is to realize the highest possible attainment in the development of young men for athletic competition.

The full program of the regatta is as follows:

First Race.

8:15 P. M.—University four-oared shells, without coxswains. Course, two miles, beginning one mile north of the bridge and finishing one mile south of it.

Trophy—the Kennedy challenge cup, presented in 1899 by Davidson Kennedy, Pennsylvania, to be held by the winner for one year. Present holder of the trophy, Cornell.

Entries and course positions:
No. 1—Columbia.
No. 2—Syracuse.
No. 3—Cornell.
No. 4—Pennsylvania.

Course positions in all races begin their numbers from the west shore.

Second Race.

4 P. M.—Freshmen eight-oared shells, with coxswains. Course, two miles, beginning one mile north of the bridge and finishing one mile south of it.

Trophy—the stewards' cup, presented in 1906 by a graduate of Columbia, to be held by the winner for one year. Present holder of the trophy, Columbia.

Entries and course positions:
No. 1—Pennsylvania.
No. 2—Columbia.
No. 3—Wisconsin.
No. 4—Cornell.
No. 5—Syracuse.

Third Race.

5:15 P. M.—University eight-oared shells, with coxswains. Course, four miles, beginning three miles north of the bridge and finishing one mile south of it.

Trophy—the varsity challenge cup, presented in 1905 by Dr. Louis L. Seaman, Cornell, to be held by the winner for one year. Present holder of the trophy, Cornell.

Entries and course positions:
No. 1—Wisconsin.
No. 2—Pennsylvania.
No. 3—Syracuse.
No. 4—Columbia.
No. 5—Cornell.
No. 6—Stanford.

The hour for the big race—5:15—is fifteen minutes after the ebb tide reaches its maximum. The freshmen race will have a strong ebb, and the tide will be running well for the varsity four-oared race.

The Poughkeepsie course is a straight, deep stretch of water, beginning three miles north of the Poughkeepsie bridge and finishing one mile south of that structure.

SPOT ON SUN'S SURFACE; DIAMETER, 14,000 MILES

Discovery by Scientists at Mount Wilson Observatory, in California.

Pasadena, Cal., June 26.—The largest sun spot which has been detected within a year, a cold patch on the sun's surface 10,000 miles in diameter, though its mark on the seventeen-inch image at the Mount Wilson Observatory measures but a fifth of an inch across, is now under observation.

The area of the sun spot is approximately 78,540,000 square miles, a surface nearly ten times the size of North America.

Observed in Washington.

Washington, June 26.—Professor Asaph Hall and Observer Peters, of the Washington Naval Observatory, said to-day the spot has been observed for two weeks past here, and he has taken a series of photographs of the blemish.

"The sun spot now visible," said Mr. Peters to-day, "is only a small one. It measures only a little more than 14,000 miles in diameter; say about five times the width of the United States, from coast to coast, or a trifle less than Japan. When these sun spots attain a diameter of 100,000 miles we advertise them a little, but we pay small heed to little ones like the present speck."

The astronomers at the observatory say the minimum sun spot period is just past and that within a few years a recurrence of spots of great size and in large numbers will be noted. That there is a connection between the occurrence of spots on the sun and terrestrial weather phenomena, Professor Hall declared, to be probable, though no exact data has been compiled to show just what this connection is.

However, the present spot, being a lone wanderer, as it were, has probably not exerted any influence on the earth's weather, owing to its small size and lack of company. The spot is passing off the sun and is now near the western "limb" or edge. Within a few days it will have passed out of sight.

Two Women Killed in Mine Car.
[Special to The Times-Dispatch.]
Bristol, Va., June 26.—Losing control of an elevator car in a mine shaft at Dante, according to news received here to-night, Mrs. Cartwright, the foreman of the mine, and a visiting woman were killed. Two children of Mrs. Cartwright, who were in the car, were uninjured.

THINK OF IT!

The Richmond and Henrico Railway Company, by its persistent endeavor to sell out to the Virginia Railway and Power Company, HAS DEMONSTRATED THAT ITS PURPOSE IS TO USE FOR BARTER AND SALE THE FRANCHISES IT OBTAINS FROM THIS CITY.

So long as franchises can be obtained and sold at a profit, THE BUSINESS OF EXPLOITING THE PUBLIC CAN NEVER BE STOPPED.

So long as any city continues to give away franchises to predatory corporations whose purpose is NOT to benefit the people, but to force an older public service company in the same field to "come to terms," there is no limit to the string of financial disasters for which THE PUBLIC WILL HAVE TO PAY.

Are YOU going to be fooled into thinking that YOU would not have to pay?

Who ever heard of a fight to a finish between two public utility corporations in which the Public was not caught between the upper and nether millstones?

No man and no city can with impunity resist an immutable and inexorable Natural Law.

THAYER'S FAMILY AIDS MEMORIAL

Washington, June 26.—Every member of the household of Mrs. John B. Thayer, widow of the vice-president of the Pennsylvania Railroad, who

Drop Over to Forest Hill Park

Each afternoon or night this week and hear the

Chicago Ladies' Symphony Orchestra

You will enjoy it. Concerts twice each day are absolutely free to all. Many other pleasing attractions.

Can Cancer Be Cured? IT CAN

The record of the Kellam Hospital is without parallel in history, having cured to stay cured permanently, without the use of the knife or X-ray, over 90 per cent. of the many hundreds of sufferers from cancer which it has treated during the past fifteen years.

Physicians treated free.
KELLAM HOSPITAL
1017 West Main Street,
RICHMOND, VA., VIRGINIA.

went down on the Titanic, has contributed to the fund which is being collected by the Woman's Titanic Memorial to erect in Washington a memorial arch to the men who stood back from the lifeboats on the night of April 15 that the women and children might be kept above water until the crushing Carpathia could reach the spot.

Mrs. Thayer writes in terms of strong commendation of this proposed tribute of American women to the self-sacrificing courage of men.

"It is with deep pleasure that I enclose this check from the women of my household for the Woman's Titanic Memorial," Mrs. Thayer writes. "What a splendidly conceived project! And one which you may imagine that I enter with the deepest interest. Has it been suggested that a fitting inscription might be found in that text of St. John, xvi, 13, 'Greater love hath no man than this, that a man lay down his life for his friends.'"

"I enclose a list of the names of our household subscribers, and shall be glad to send more should it be necessary, but quite realize the beauty of the national subscription idea, and feel quite sure that the full amount will be over-subscribed by our American women."

Mrs. Thayer's contribution adds another distinguished name to the list who have forwarded checks and pledged their co-operation to the project.

Contributions have also been received from several of the sailors who manned the lifeboats of the Titanic, and one of the most interesting letters from members of the ship's crew contained a mutilated \$1 bill which was forwarded by the Titanic's head barber, who said that the bit of money was in his pocket when he went down with the boat and was the only thing of value on his person when picked up in an unconscious condition by a collapsible lifeboat.

Fetzer-Port.

[Special to The Times-Dispatch.]
Goldboro, N. C., June 26.—The wedding of Miss Frances Pearl Fort, daughter of Col. W. B. Fort, of Belvidere, Fikeville, N. C., and Robert A. Fetzer, of Concord, N. C., took place on Monday. The ceremony was in all its aspects old-fashioned, though none the less magnificent and impressive on this account. It was celebrated at the residence of Colonel Fort, a venerable homestead on the estate, which has been in the family possession since the days of the Indians.

Shortly before 8 o'clock Monday evening the wedding ceremony was begun by Mendelsohn's "Spring Song," rendered faultlessly on the violin by Miss Lucia Privett, of Goldboro, accompanied by Miss Lina De Rosset, of Wilmington, during which the wedding party of nine maidens of honor and nine groomsmen, formed, with connecting links of pink tulle studded with La France roses and smilax, an aisle through which the bride, the dame of honor and the flower girls passed.

ported chiffon over duchess satin and real lace. She carried a white prayer book with pendant lilies of the valley. Her train was carried by her colored mammy in white turban neck cloth and apron. The dame of honor, Mrs. Richmond Reid, of Concord, N. C., wore a white lace robe. She carried pink La France roses. The maids of honor wore pink crepe meteor trimmed with Irish lace. Little Misses Mattie Parker, Ogden Parker, and Norwood Holmes, of Goldboro, N. C.

The bride was met at the altar of evergreens erected in the main hall by the groom and the best man, William Fetzer, Miss Fort was given away by her father, and Rev. M. T. Dickinson, of Goldboro, officiated, the ring service of the Episcopal Church being used.

Following the ceremony a brilliant reception was tendered, the bridal party and a few friends, at the conclusion of which the newly married

couple motored to Goldboro and proceeded thence to Hot Springs.

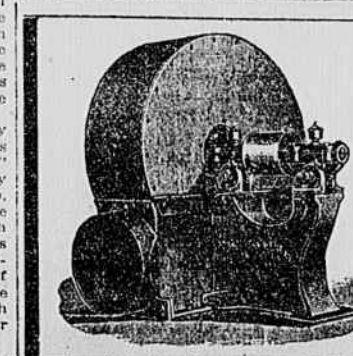

Mr. Fetzer occupies the position as head of the science department and of athletics at Woodberry Forest School, Orange, Va.

During the week preceding the wedding the following maids of honor and groomsmen enjoyed a house party at Belvidere: Misses Margaret Clary, Baltimore, Md.; Janie Ingram, Frederick, Md.; Sadie Rollins, Asheville, N. C.; Lina De Rosset, Wilmington, N. C.; Lucia Privett, Goldboro, N. C.; Edna O'Berry, Goldboro, N. C.; Rachel Borden, Goldboro, N. C.; Blanche Holt, Oak Ridge, N. C.; Messrs. William McK. Fetzer, Concord, N. C.; J. N. Cole, Jr., Raleigh, N. C.; William T. Joyner, Chester, S. C.; Allen Jones, Columbia, S. C.; R. H. Crawford, Rock Hill, S. C.; Harrison Yelverton, Goldboro, N. C.; I. V. Graham, Lexington, Va.; T. J. Fetzer, Shelby, N. C.; William Persons, Fikeville, N. C.; J. D. Pool, Goldboro, N. C. The chaplains were: Mrs. Richmond Reid, Concord, N. C.; Mrs. S. A. Erwin, Concord, N. C.; Mrs. J. F. Hurley, Concord, N. C.; and Mrs. A. M. Mosley, Greenville, N. C.
